Kids Rock the World Grant Project

Vote right now while you are on your computer to raise \$25,000 so kids can write original songs, perform at real rock concerts and create music videos. We just won't tell the kids that a ton of learning is camouflaged in all the fun!

The basic idea is that instead of spending 200 million dollars on a commercial for this years super bowl Pepsi decided to start the Refresh Project which supports grassroots ideas from everyday people working to make our world a better place to live.

You can vote now at www.willhale.com

Please tell everyone you know and everyone you don't know! Tweet to your hearts content, invite all your Facebook friends to join the jam, email, text and shout from the roof tops "Kids Rock!"

The public votes on which projects to fund. There are plenty of noble organizations struggling financially but what's nice about the Refresh Project is we are not asking for any money we only ask for your support by voting.

It feels empowering to me to be able to do something that doesn't require money or a lot of effort to support ideas I believe in. I also like that it focuses on creative solutions instead of dwelling on problems. Receiving financial resources is certainly helpful but one can only image the continued impact of the creative intentions sparked by people willing to take action for good.
